Colonel Jacob Ruppert's stable arrived at the Gravenend track yesterday afternoon. J. S. Close observers of cycling notice a sensible reform in the dress of cyclists, both men and women riders. The men are discarding the braided uniforms and outlandish shaped caps, and the uniforms of to-day are either of dark finnnels or of light worsted checks, with the cap to match. Women are riding with ease and comfort, and short skirts, with leather leggings, are popular and modest-looking. Bloomers, when properly cut, make a becoming costume. Some of those who go in for solid comfort predict even that tights will be worn this summer, under short skirts, and leather or cloth leggings. Close observers of cycling notice a sensible re-

People living in the Eastern or Bedford districts of Brooklyn are clamoring for good roads, and justly, too. Many of the streets in that part of Brooklyn would be a disgrace to a country hamlet. Charles Culver declares he has invented an elec-

The Prospect Wheelmen, of Brooklyn, are in a flourishing condition. The following club runs have been arranged for this month: May 12, to Plainfield via Tottenville; May 19 to Tarrytown, May 26 to Amityville and May 30 Irvington-Millburn race.

GOUT, RHEUMATISM,

rheumatic gout, or any gouty or rheumatic affection whatever, has its surest remedy in the Carisbad Sprudel Salt. There's nothing so successful in clearing out the excess of uric acid in the blood. That has been proved in hundreds of years and in thousands of cases at Carlsbad.

So with any of the ailments brought on by sedentary habits-dyspepsia, indigestion, perverted nutrition, coastipation, Carlsbad cures them, and cures them permanently.

But the best way is to prevent them. A little Carlsbad Sprudel Salt taken when you suspect any trouble, will keep your stomach and liver and bowels and kidneys in perfect order.

His own open attack on Agiliardi, Baron Banffy explained, was due to his misunderstanding a letter from Kainsky. POSALS OF NEWFOUNDLAND.

St. John's, N. F., May 6. The chances for confederation are regarded as less favorable to-day owing to the delay in receiving an answer from the Imperial Government, which is considered ominous. Imperial Government, which is considered ominous, Mail adules from Canada indicate that the Canadain Ministry is not inclined to accept the proposals of Newfoundland for the reason that they are in excess of those granted to other provinces.

The Whiteway Government is preparing to submit a Budget which will increase taxation and reduce expenditures. If confederation fails, the Whitewayless will probably stabbornly resist the Crown colony plan, as its adoption would mean the extinction of politicians and the abrogation of the Legislature.

WILDE TO BE RELEASED ON BAIL. HE IS TO HAVE AN OPPORTUNITY TO PLY IP HE DESTRES AND MAY NOT BE TRIED AGAIN.

London, May 6-Oscar Wilde, it is announced, will be released from an today of the coeffed in finding the sureties required, and they have been approved by Justice Pollock, who signed an order for Wilde's release. The names of his bondsmen are not made public. Wilde will probably leave London at once for the scaside.

The statement of C. F. Gill, counsel for the prosecution, that Wilde would undoubtedly be retried at the next residons was made without the authority of the Public Prosecutor. It has not yet been decided whether the Government will take steps to have Wilde again placed on trial. They are willing that he should be again arraigned, but it is understood that the heads of the Church and many other eminent persons urge on the Government the fact that much harm would be done by the adoption of such a course. The police are ordered not to maintain too close a watch on Wilde's movements, and not to prevent him from going to the Continent if he wishes to do so.

The cruiser Marblehead joined the flagship Sag Francisco at Naples this morning, after a two-weeks' cruise along the eastern end of the Mediter-ranean, under orders from Washington to visit Syrian ports and notify to the local authorities that American missionaries would be forcibly protected in case of any uprising. This action was due to re-ports which had been received by the State Deports which had been received by the State Department expressing fears of similar occurrences to those in Armenia. The visit of the two American vessels, in the opinion of consular officers and missionaries, has had a most salutary effect, not only resuiting in the dissipation of all plots against the Christians, but making an impression that, it is thought, will last for some time.

An order was issued at the War Department today announcing to the Army the death of Brigadier-General and Brevet Major-General John Newton, formerly chief of engineers of the Army, detailing his distinguished services and enjoining that the customary badge of mourning be worn on the sword-hill for thirty days.
